What is Convenience Food?

**Carefully prepared, delicious and nutritious dishes,
ready in a few minutes**

A crunchy, aromatic wing or a juicy loin? The dishes we serve are crispy, aromatic and mouthwatering. They are prepared in many ways: baked, marinated, breaded, in tempura, seasoned with herbs, spicy or mild...
Everyone will find a favorite.

We combine natural nutritional values, excellent taste, and instant preparation. We do everything to meet the expectations of our demanding clients and value the customers' and partners' opinions, but we don't forget about tradition. As a result, our final products reach all the most important expectations of the convenience food market. Our meals present a true harmony of flavours and a feast for your senses – all this at your fingertips.

Who are we?

We put our heart and soul in our work

As children, we used to love helping our mum with dinner. Each of us had a different task: to season the food, lay the table, do the dishes.

Our mother taught us that we should put our heart into preparing a meal and pay attention to every detail. We learned a lot about the significance of good organization and communication to achieve a common goal. Now, our most important objective is to supply top-quality poultry products and this is what our family has been concentrating on for the last 25 years.

Our family values naturally turned into the mission of our company. In the spirit of our time, we have created healthy, wholesome, and tasty dishes that anyone can prepare in a blink of an eye. We produce fresh poultry meat and the highest-quality frozen products in IQF technology, as well as Convenience Food.

How do we oversee quality?

From the selection of suppliers, through production standards, to packaging and logistics

We abide by the policies of HACCP, GMP, and GHP. We meet all the BRC and IFS standards. We only acquire poultry from certified and verified Polish farms and we care about the humanitarian conditions of breeding and butchery. All our products are subjected to regular microbiological and chemical tests. Our production line is equipped with innovative, high-standard equipment. Finally, modified atmosphere packaging helps to extend the shelf life without sacrificing the flavour.

We are faithful to our values, but we listen attentively to others' opinions.

We want to evolve for our customers, partners, and employees.
